

PerioRx Chlorhexidine Gluconate Oral Rinse

Give Your Patients a Flavor to Follow Through!

Patient compliance is always a challenge with chlorhexidine gluconate! Studies show that 75% of patients prefer the mint flavor of PerioRx Chlorhexidine Gluconate Oral Rinse over the current market leader.* Not only does it taste great but it also provides effective relief and comprehensive antimicrobial action:

- Treats Gingivitis
- Controls gingival inflammation, swelling and gingival bleeding
- Promotes soft tissue healing after cleaning, periodontal & restorative procedures
- Reduce plaque and oral bacteria
